

BETH CARRION

ACCOUNT MANAGER, BE THE MATCH

HI, I'M BETH
(PRONOUN'S SHE/HER/HERS)

 210-214-7130

 ecarrion@nmdp.org

I am a Regional Account Manager at Be The Match working on the Engagement, Enrollment & Experience Team. My main focus is to help patients find a blood stem cell match if one is not available on our National Registry. This includes marketing, media relations and hosting events alongside most of our colleges and universities within the DMV area. Our mission is to end the disparity among other underserved populations and help find equal outcomes for all of our searching patients. Together we CAN save more lives!

I have been married to my husband Oscar for 14 years and he serves as a Chief Warrant Officer 5 working for the Army's Surgeon General's Office in the United States Army. We have 4 beautiful daughters and our precious sweet dog Koda. I am originally from Miami and have lived all over the world with our final stop being the DMV area. I really love this area including the change in season.

I have a degree in Emergency Medical Services along with a Fire Science degree. My past career I served as a Firefighter/Paramedic and loved working alongside so many brave men and women. Our military life took me away from the front lines, but I would not change my new life in which I now serve all communities with such great hope and service.
