**HI, I'M ELISE
(PRONOUN'S SHE/HER/HERS)**

PROFILE

I am the owner of WinniE's Bakery & oECo Studios which is an innovative ethical-eco production company creating engaging food + product video. I am a baker, recipe developer and food writer. I hope to have my cookbook out very soon! In my family life I am a proud daughter, aunt, sister and dog owner of my sweet girl Sienna. I was diagnosed at 18 with thyroid cancer which I was able to beat so I went about my life with so much hope. I was then unfortunately given the news that after having radiation treatment used to cure my first cancer that caused a neoplastic condition called Myelodysplastic syndrome (MDS). Doctors have told me I will now need a blood stem cell transplant to cure my second cancer. I am of African American/Hispanic heritage and it is extremely difficult for people of a mixed ethnic origin to find a suitable donor. Less than 3% of people registered as donors worldwide have a mixed ethnic background.
